

Summary Judgment Research Guide

Overview

This research guide includes information and resources on summary judgment. A summary judgment is “a judgment granted on a claim or defense about which there is no genuine issue of material fact and on which the movant is entitled to prevail as a matter of law. The court considers the contents of the pleadings, motions, and additional evidence adduced by the parties to determine whether there is a genuine issue of material fact rather than one of law. This procedural device allows the speedy disposition of a controversy without the need for trial.” (*Black’s Law Dictionary*) The resources listed below are not exhaustive and may not include the most up-to-date information. It is for information purposes only and should not be construed as legal advice or act as the substitute for legal counsel.
